LETTERS TO THE PRESIDENT. "Well Meaning Amateurs" Asked Him to Intervene, but He Won't.

WASHINGTON, Oct. 9.- The efforts made to induce President Roosevelt to urge Charles E. Hughes to accept the Republican nomination for Mayor of New York are confined to letters addressed to the President by men in New York who were described to-day as "well meaning amateurs." According to a friend of the President, presumably nobody interested saw Mr. Roosevelt in connection with the nomination of Mr. Hughes. While this man did not feel at liberty to tell the names of those who had written to the President, he could say that they were not very promi nent politically, and that they did not belong to the Odell faction. Some of these letters were received at the White House before today. No consideration was given them by the President, who, it is asserted, will decline to take part in the efforts of the Republicans of New York to secure a can-didate for Mayor.

GOOD CHANCE FOR EBSTEIN.

CANDIDACY OF JIMMY RIDGWAY CAUSES A HOWL.

Decent Citizens of Brooklyn Disgusted Senator Metarren's Blunder Leader Carried Away by the Clamor of the Candidate's Racetrack Friends

In spite of the muddle over the city ticket, the Republican warriors in Brooklyn are going to put up a stubborn fight for their local candidates. The rank and file of the party are greatly pleased over the action of the convention on Saturday in rejecting the demands of some outside organization for representation on the ticket and in naming for each county office only a well tried and true blue Republican. The visitors at Republican headquarters yesterday all expressed satisfaction and predicted that a much better fight would be made than if composite ticket had been put up.

Major Fred H. E. Ebstein, who heads th ticket as the candidate for President of the borough, was an early caller at the Joralemon street headquarters. He has been deluged with congratulations ever since his nomination on Saturday afternoon, some of them coming from Democrats who are disgusted at the choice of Jimmy Ridgway, his opponent, for the most important and honorable rlace in the borough.

There has been a general lamentation among important Democrats all over the borough that Senator McCarren did not crown his elevation on Saturday night to the unquestioned leadership of the Kings county Democracy by the selection of a dignified and really representative man for the head of the ticket. Many close friends of the Senator deeply regret that he allowed the clamor of Jimmy Ridgway's racetrack friends to commit him to the really first serious political blunder he has made since he dethroned the boss of Willoughby Street two years ago.

There were rumors in circulation yesterday that to relieve Schator McCarren from an embarrassing position and the borough ticket from a heavyweight during the campaign Ridgway was willing to retire from the field and let some strong candidate be named, but they were emphatically denied at Democratic headquarters. Major Ebstein, according to close political observers in both camps, is going to get a fine vote from self-respecting Democrats, who have not forgotten Jimmy Ridgway's racetrack associations, his friendship for John Y. McKane, the tyrant of Gravesend, and his descent from twelve years incumbency of the District Attorney's office to become the legal defender of crooks, blacklegs and criminals

of all degrees. It is admitted on all sides that the Democratic candidate for President of the borough does not possess a single marked qualification for that office. That his defeat is not hopeless also is admitted by politicians who recall the slaughter that John Morrissey Gray and other weak Democratic candidates received at the hands of the voters of Kings county during the past twenty years. The Gillenites and all the other anti-McCarrenites whom Ridgway denounced as "yellow dogs" during the recent factional hostilities may have their revenge on November 7.

This was the Tammany ticket nominated last night by the Bronx Borough convention in the Jefferson Club at 704 Courtlandt avenue. Praise of Mayor McClellan marked the convention. Borough President Haffen is the Tammany leader in The Bronx. In 1893 Mayor Gilroy made him Commissioner of Street Improvements in The Bronx, an office that was abolished by consolidation. He was elected Borough President in 1897. He was reelected in 1901 when he defeated James L. Wells, who is the sole survivor of the Odell-Halpin sandbagging ticket. He was reelected again in 1903. Wallace S. Frazer is a lawyer. Jerome S.

Wallace S. Frazer is a lawyer. Jerome S. Healy is a labor leader.

The friends of Coroner Berry hoped until the convention met that he would be renominated although he went into office as a fusionist. William O'Gorman, the other Bronx. Coroner, is fighting Haffen and expects to head the Municipal Ownership League ticket in The Bronx.

A committee of Republicans, Hearst men and Cits met last night at the Union Republican Club in The Bronx to see if they could not agree on a borough ticket. They adjourned without agreeing and each faction declared that it would have a separate ticket in the field. It was said that former Alderman Jacob Leitner would head the Republican ticket.

IT'S THE SOCIALIST PARTY NOW. Certificate of the New Name Filed With the Secretary of State.

name that of "The Socialist Party." The change was made to-day by a certificate filed with the Secretary of State.

When the certificate was received by Deputy Secretary of State Tennant he referred it to Attorney-General Mayer, and upon the report from the Attorney-General's Department that it was in proper form, it was filed, and the Secretary of State will make use of the new name in the printing of the official ballots this year, the party having polled in excess of the 10,000 votes at the last election necessary to entitle it to a party column on the ballot.

Another certificate of nomination of interest which the Secretary of State has received and filed is that of the Prohibitionists indorsing the candidacy of Supreme Court Justice Burr, who was named to succeed himself by the Republicans of the Second judicial district.

He said that he would have nothing to say for pullication until he had been officially notified of his nomination by the Republicans and he had fled his petition for the independent nomina-tion by the Jeffersonian Democracy. No trouble was had in securing the necessary 2,000 signatures of independent Demo-crate, and the petition will be filed as soon

Mr. Bernet's name will not only be on the Republican ticket, but it will also appear on the bullet in the Independent column, which will contain the Democratic city ticket headed by Mayor McCleffan. This will make it necessary for Democrats and independents who wish to vote for both McClellan and Bermel to split their tickets.

The committee appointed at the Re-publican convention to notify Mr. Bermel will wait on him to-night at his home in Middle Village. In his formal letter of ac-ceptance, which will be lesued to-morrow, he will outline his policy as to the management of borough affairs if elected. A strong effort will be made to keep partizan politics out of the campaign and to conduct the agitation against four years more of Cassidy

on purely business lines. Many Republicans, especially in Flushing, are still dissatisfied with Bermei's nomination. They seem to be haunted with the fear that he will turn out to be another Cassidy. On the other hand, some of the most conspicuous Republicans, who are in no way identified with the Odell county committee, speak in the highest praise of his candidacy and assert that he is the only man in the borough who has a show to beat Cassidy. One of these is Lucien Knapp, ex-City treasurer of Long Island City, who, in spite of the fact that he was asked to take the nomination himself.

led the fight for Bermel. in the convention "I have known Mr. Bermel for many years," said Mr. Knapp yesterday, "and I have the utmost confidence in his integrity and ability. While he has been actively engaged in politics he is in no sense a politician for the money there is in it. He is first of all a business man, and a successful one at that, and I firmly believe that he can be trusted to restore the government of the borough to a sound business basis. It is ridiculous to compare him in any way to Cassidy. The men are not of the same temperament, type or ideas. There is nothing of the bulldog about Mr. Bermel, and from his very nature he would be guided by the wishes of the people. 'Above all things he is an honest man.

"I worked for his nomination because thought it would be the very best thing for the people of Queens, regardless of any partizan consideration. I am a Republican myself, but I hope I am broad enough upon occasions like these, when there are no party principles at stake, to put partizanabip saide and work for the best interest of the community. Nothing can be done over here to better the government until Cassidy is shorn of power, and I dread to think of four years more of his rule.

"I am aware that many of my friends "I am aware that many of my friends on the Republican side do not agree with me, but I hope that they may be brought to see the situation in the proper light before they cast their ballots. They point to the fact that Bermei has long been Cassidy's most important subordinate in the borough government and that he did not resign until a few days before he was nominated by the Republicans. This appears. nated by the Republicans. This appears, on the face of it, to be a good argument, and I will frankly confess that Mr. Bermel would have been a much stronger candidate if he had resigned some months ago, as he

as a matter of fact, Mr. Bermel "Now, as a matter of fact, Mr. Bermel personally was willing and anxious to resign a year ago, and it was only his loyalty to his friends that prevented him. He knew that if he got out then they would be slaughtered without ruth. Many of them were willing to make the sacrifice, but he decided to remain in office and protect them as long as he could. I think if the truth of the matter had been generally known to the delegates there would have been little or no opposition to his nomination at the first session of the convention.

vention.
"It is folly to talk about a straight ticket "It is folly to talk about a straight ticket in Queens against the Cassidy machine. I have been active in the politics of this vorough for many years, and my experience has been that we, the Republicans, have never been able to gain a substantial victory except through fusion with the independent Democrats. If the people of Queens really want to get rid of Cassidyism they now have the chance of a lifetime."

The Cassidy forces professed yesterday to be more than satisfied with the nomination of Bermel. The small fry were strutting about Borough Hall declaring that Cassidy would be elected by 5,000 majority. It was noticed that the big leaders were not so sanguine and were making no predictions as to majorities. The fact is that the boasted harmony in the Cassidy ranks is largely on the surface and that deeper down there is much restlessness and discontent.

Being a leader under Cassidy is not such a sineoure as most people imagine. These, leaders get salaries as commissioners, deputies, &c., of from \$2,000 to \$4,000 or \$5,000 a year. Out of this they are forced to keep up expensive district organizations and make a good showing whenever the big boss gives the order.

The expenses of keeping up these organizations are such a heavy drain on their resources that some of them have been obliged to go in debt to the butcher and baker. Others have been rash enough to follow Cassidy at the racetrack, hoping, by betting as he does, to recoup their fortunes. But it takes big money to follow a plunger, and the result is that most of the "pikers" who have trailed along after King Joe are out of pocket by the operation. One man in Long Island City said yesterday that he had lost \$500 in small bets this season in trying to keep up with the Cassidy system.

HELD CITY JOB AS DEAD WAN.

PORD, WITH A LONG PRISON RECORD, POSED AS SLINEY.

Arrested After He Had Warked in the Fax Office stoop total Good for Frare for Reliting His Stateres for posture Passes Etcli Service Hours

Joseph Ford, who have been in prison for manatorighter and largery and other has been holding a job in the Tax Impartment under the came of a dead man, was arrested terriny afternoon on a warrant charging him with personation and grand larceny. Port says he is a first consin of former Tammany Leader Parcy Nagle. When he got the job under an assumed came he pave Nagle as a reference. President William P. Beker of the Municipal Civil Service Commission has begun an investigation to find out how Ford came to be drawing a salary from the ofty, as the evidence discovered by District Afterney Jerome shows that it was either through collusion or very law methods in the office of the Civil Service Commission. Ford save that there was no collu-

and that he didn't feel that he was doing wrong. He has been a justor clerk at \$600 a year in the office of the Bureau for the Collection of Assessments and Arrears since January 12, 1905, and had been acting as a temporary clerk from October, 1908. He would still be drawing money from the city if a person who discovered the facts hadn't gone to Mr. Jerome with them Assistant District Attorney Vandiver

learned from the civil service records and in other ways that on January 8, 1900, Frank A. Sliney, who was then 28 years old, applied to take a civil service examination for a junior clerkship. Such an applicant must furnish as references three citizens, who are supposed to swear that they know the applicant and that he is not an impostor. Sliney passed on May 21, 1901, getting 50 per

cent. Sliney had a good job in a clothing house at the time and he didn't try to get the clerkship. He died in the summer of 1904. Sliney, it appears, was a cousin of Ford. The records show that on December 16. 1904, Ford, posing as Sliney, appeared in the office of Edward A. Slattery, Collector of Assessments and Arrears, with about twenty other applicants for a junior clerkship. Mr. Slattery approved of Ford and he was appointed on January 12, 1905, at \$600. Sliney's application had stated his age as 28. Ford's, made in the name of Sliney, gave his age as 51 and his references were not the same as Sliney's. A rule of the Civil Service Commission requires that when a man is appointed he must fill out a blank that will correspond with the application he made to be examined. In this case there was no correspondence except the name, but the Civil Service Commission officials either did not discover this or did

not report it. Having discovered so much, Mr. Vandiver went into Ford's prison record. On February 5, 1877, Ford was indicted five times for grand larceny. He was employed as a rent collector for E. C. Richards, a real estate dealer, and got away with about \$1,000. He pleaded guilty and got two and a half years in Sing Sing. Garrett Nagle and Dr. John T. Nagle, Deputy Register of Records, interceded for him. On March 24, 1882, Ford was sent to the penitentiary for a year by Recorder Smyth for shooting Alexander Ford, said to have been a relative. He pleaded guilty.

In 1889 he killed a woman known as Nellie Barry and Nellie O'Connor. He had been living with her and killed her after a quarrel. He pleaded guilty to manslaughter in the first degree and was sentenced to twenty years by Recorder Smyth. He was re

leased from Sing Sing in May, 1900. Mr. Vandiver laid all this information before President Baker of the Municipal Civil Service Commission, and he questioned the clerks who are supposed to verify the blanks and look up references, but ch shifted the responsibility to another Mr. Baker explained that it had happened under the administration of Bird S. Coler before he took office. He said he would continue the investigation, and then he made a complaint to Magistrate Pool, who issued a warrant for Ford's arrest.

That was on last Wednesday, and two of Mr. Jerome's detectives, Reardon and Butler, were sent to arrest Ford. They learned that he had been transferred to the Bronx office. On the day the warrant was issued his salary was jumped to \$1,200 a year. Although he worked for the city under the name of Sliney, he was known at his home, 750 East 170th street, under his right name.

Last Thursday Reardon and Butler waited around the tax office in the municipal building in The Bronx for Ford. They were told that he had gone to a funeral. He didn't appear the next day either and the detectives told Mr. Slattery about him. Mr. Slattery was sure Ford had been working on Thursday. He showed a time sheet to prove that Ford had worked all that day and had signed the sheet when he left the office at 4 o'clock. Then Mr. Slattery had a talk with his subordinates in The Bronx. who said that Ford had received permission to go to a funeral, and that he had come to the office at 4 o'clock and signed the time sheet. Yesterday afternoon he showed up

and was arrested. Ford told Acting District Attorney Nott that no collusion was necessary to land the job. Sliney, he said, didn't want it and suggested that he go in under an assumed name. From October, 1903, Ford said, he posed as Sliney and held a temporary job as a clerk. He didn't think he was doing anything wrong. He was much worried because he said that if he went to prison again he would have to serve seven years and eight months, which he had got off for good behavior.

Percival E. Nagle said last night that Ford's mother was a distant relative of his. He has known Ford, he said, since Ford was a boy, but lost track of him two years ago. Since then he had neither seen Ford nor heard of his affairs. Mr. Nagle seemed much surprised at being told that Ford had been in the city service under an assumed name.

The Citizens' Union followers in two districts decided, when they saw other folks having some excitement, to do s little nominating of their own. Montgomery Hare was chosen to run for Alderman in the Thirty-first district and William Mason Smith for Assemblyman in the Iwenty-ninth.

An Instrument Which Affords a Means of Enjoying in the Home the Music of the Orchestra with True Orchestral Color

An Interview with E. B. Proudfit Manager of The Acollan Company's Orchestrelle Department

"Me, Proudfit, if it is not . secret, I should like to know how it is that you manage to reproduce so faithfully in the Orchestrelle, such wholly dissimilar increments as are represented in modern orchestras,"

"I can answer that question in a general way by staring that the principle involved is that of acoustic cells. The next time you are at how odd and curious are the shapes of the different instruments. French horn, the bassoon, the bass viol, etc., do not seem to have even a family resemblance. Some are so peculiar in appearance as to he positively grotesque. Yet in every case there is a musical reason for the oddity in shape. The distinguishing voice of each instrument depends not so much upon the mouth-piece or the kind of string used, as it does upon the acoustic cell, or air-chamber, in which the tone is formed.

"We all know that the real soul of the piano is the sounding-board, not the strings or the bridges or the pin-block. Remove the back of a violin and you no longer have a musical instrument. Thus, if you study the various instruments of the orchestra you will find that each has its distinctive form of acoustic cell. Now, in the Orchestrelle we have endeavored to obtain the characteristic tone of different instruments by reproducing their characteristic acoustic cells. If you take off the case of an Orchestrelle you will find the interior a perfect maze of air-chambers of diverse sizes and shapes.

trelle occupies a similar position to Where the letter waves his harnn at the horns as the signal for them to play, the Orchestrelle performer simply pulls out the stop labeled "Horns," which has the effect of bringing into play the corresponding group of senuerle cells. Just se the character of the human voice is varied in song --- not by any afteration of the vocal cords themselves, but by sliering the shape of the mouth and the throat (the human acoustic cells) as well as the manner of projecting the tone - so we secure in the Orchestrelle the most variable and lovely effects.

"The performer on the Orches.

"We are continually striving to improve the scoustics of the Orchestrelle so as to give a still more realistic reproduction of the different instruments. Yet if we never made a single additional improvement, it would stand as one of the most remarkable developments in musical instruments of modern times. Any thorough musician who will carefully investigate the Orchestrelle will be compelled to admit that we have here really adequate representation of the chief instruments of the orchestra.

"As I now play the Tannhauser Overture from this perforated roll, want you to carefully note the great range of tonal color, from the gentle whisper of the reeds and horns in the opening bars clear through to the tremendous climax in which Wagner invoked the complete resources of the entire orchestra."

(To be continued on Saturday)

The Orchestrelle is an instrument playable by any one, irrespective of any previous knowledge of music. The new "Orchestrated Music" is a development of the greatest importance, rendering the playing of the Orchestrelle extremely fascinating. An interesting booklet entitled "The Orchestrelle and the Orchestra" will be sent to any address on application.

FAGAN WHACKS DICKINSON. Says Again Leader Was Paid by Public Service Corporation.

Another instalment of the political serial story was published by Mayor Mark M. Fagan of Jersey City yesterday. It was an answer to Col. Samuel D. Dickinson's an answer to Col. Samuel D. Dickinson's reply to the Mayor's first contribution in which the Republican candidate for reelection gave his reasons for cutting loose from the party leader in the present campaign.

Mr. Fagan said: "He (the leader denies he is on the payroll of the Public Service Corporation. This is merely a technical evasion of the substance of my charge. He does not deny that he is or was until recently in the employ of or receiving remuneration from the United Electric Company of Naw Jersey or other subsidiary pany of New Jersey, or other subsidiary company owned by the Public Service Cor-poration. I challenge him to deny that he poration. I challenge him to deny that he has received remuneration in some form directly or indirectly from the Public Service Corporation, its officers or agents, or some one of its constituent companies. I challenge any responsible officer of the Public Service Corporation to publicly state that this leader has not received such remuneration. If such a denial is made I am content to leave the public to judge between us until a legislative investigation of the relations of this corporation with many public officials throughout the State, which is bound to come, shall reveal the facts.
